

Supplemental file 1

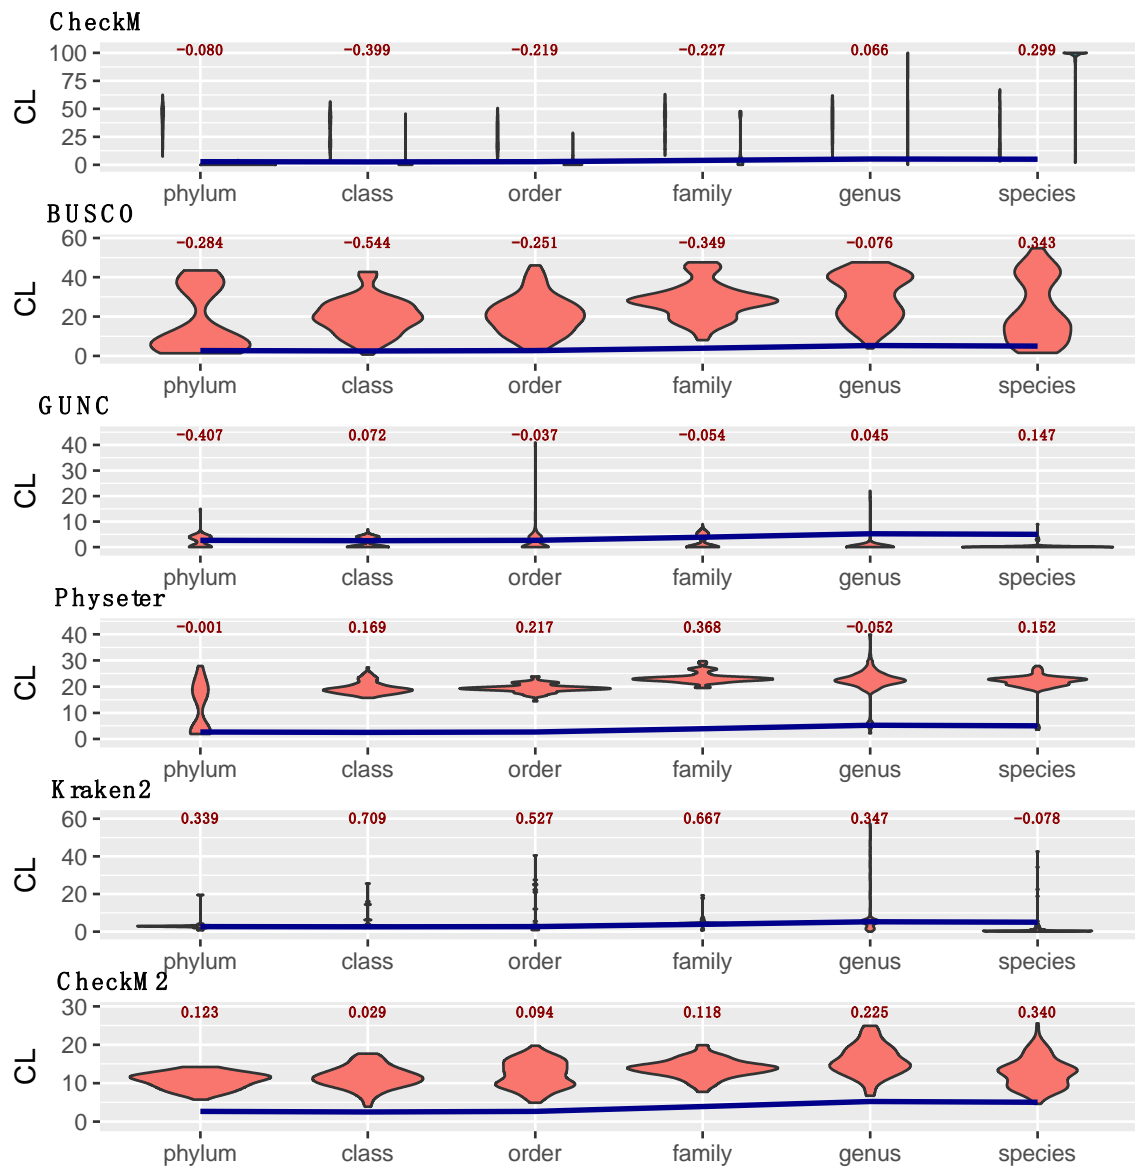

Figure S1: Contamination estimation, at six taxonomic ranks of the redundant type of contamination.

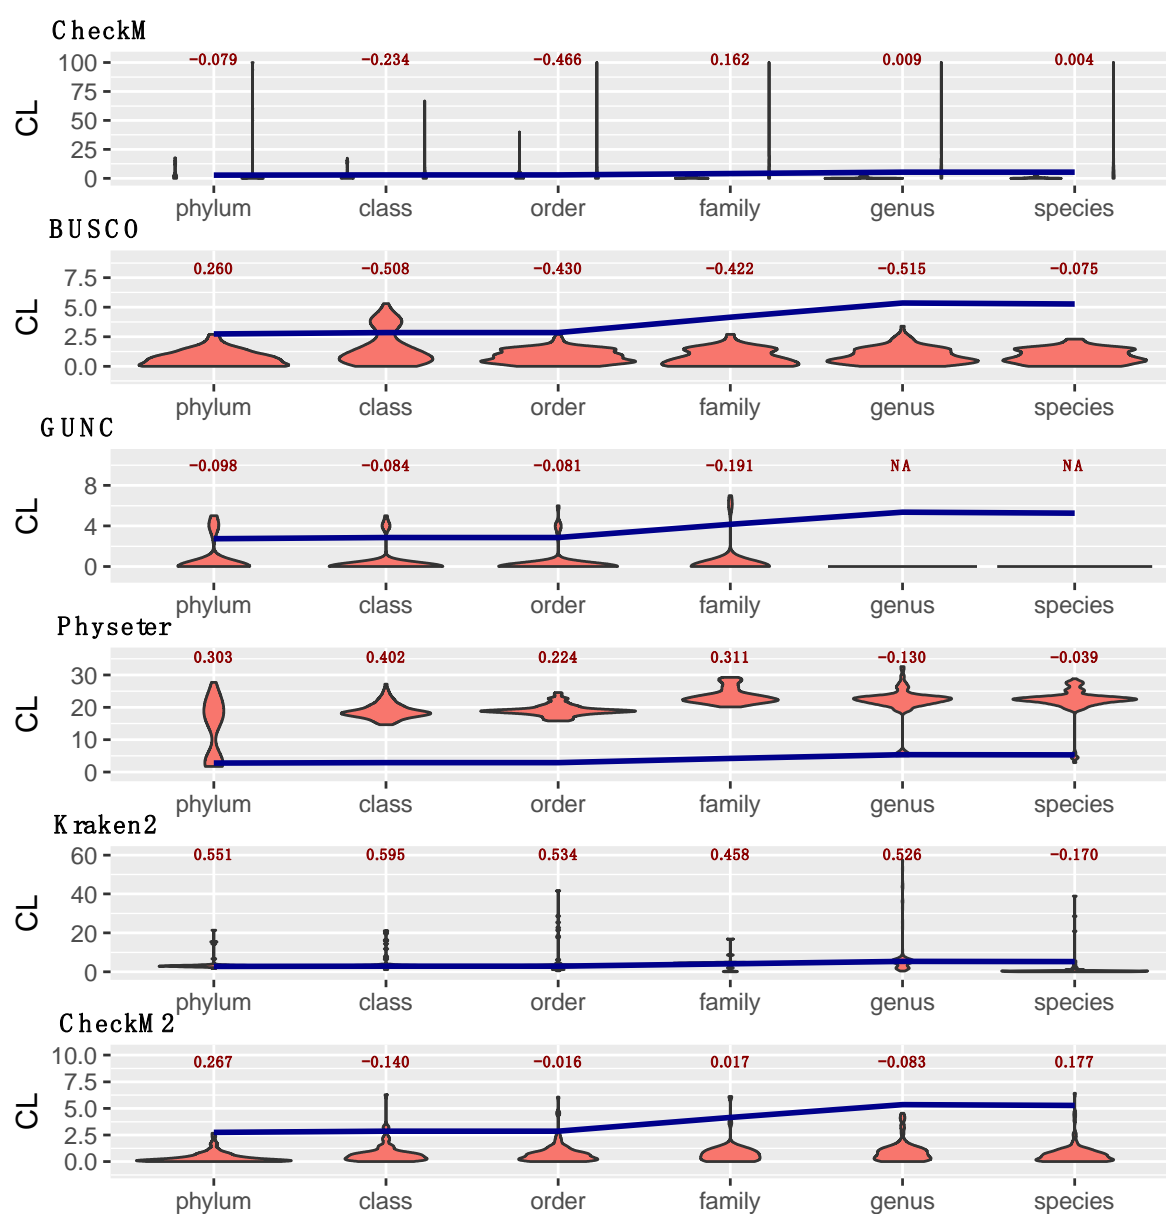

Figure S2: Contamination estimation, at six taxonomic ranks of the replaced type of contamination.

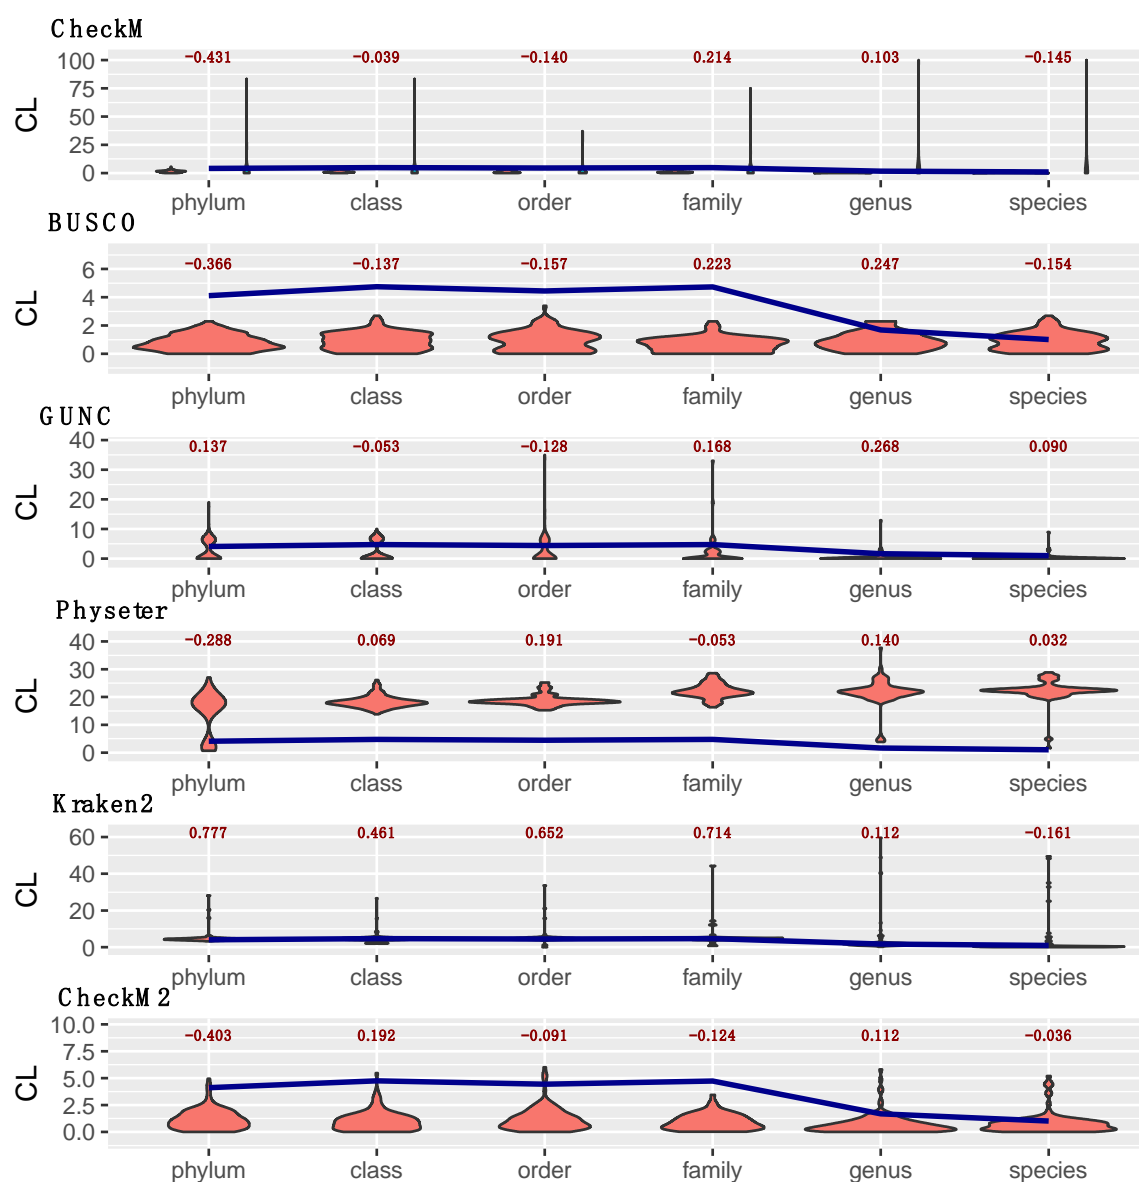

Figure S3: Contamination estimation, at six taxonomic ranks of the single type of contamination.

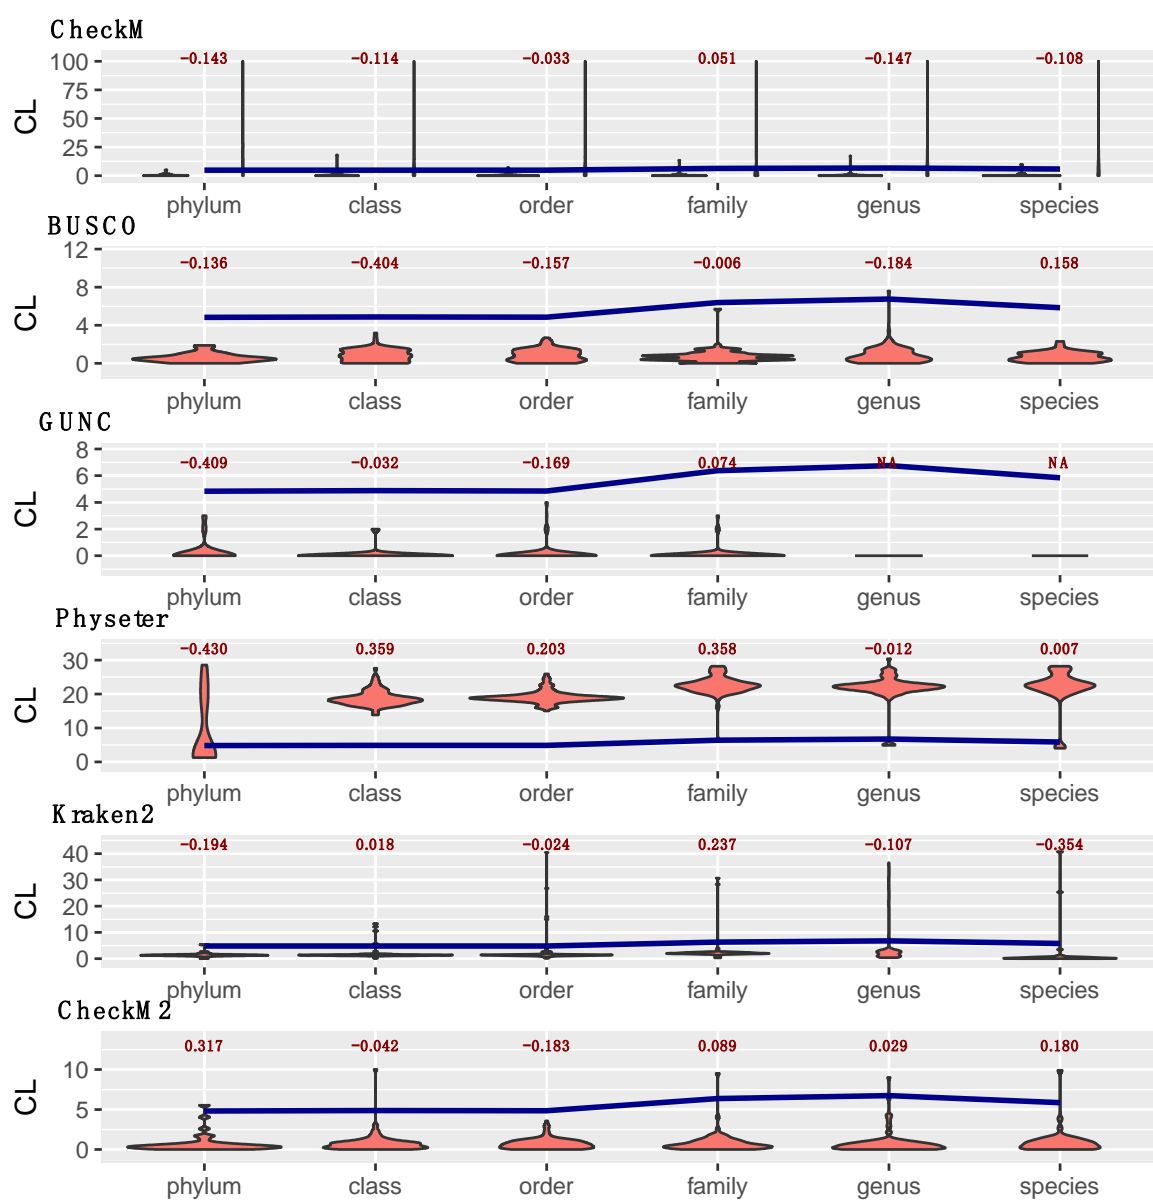

Figure S4: Contamination estimation, at six taxonomic ranks and with a mutation rate of 10%, of the combined types of contamination.

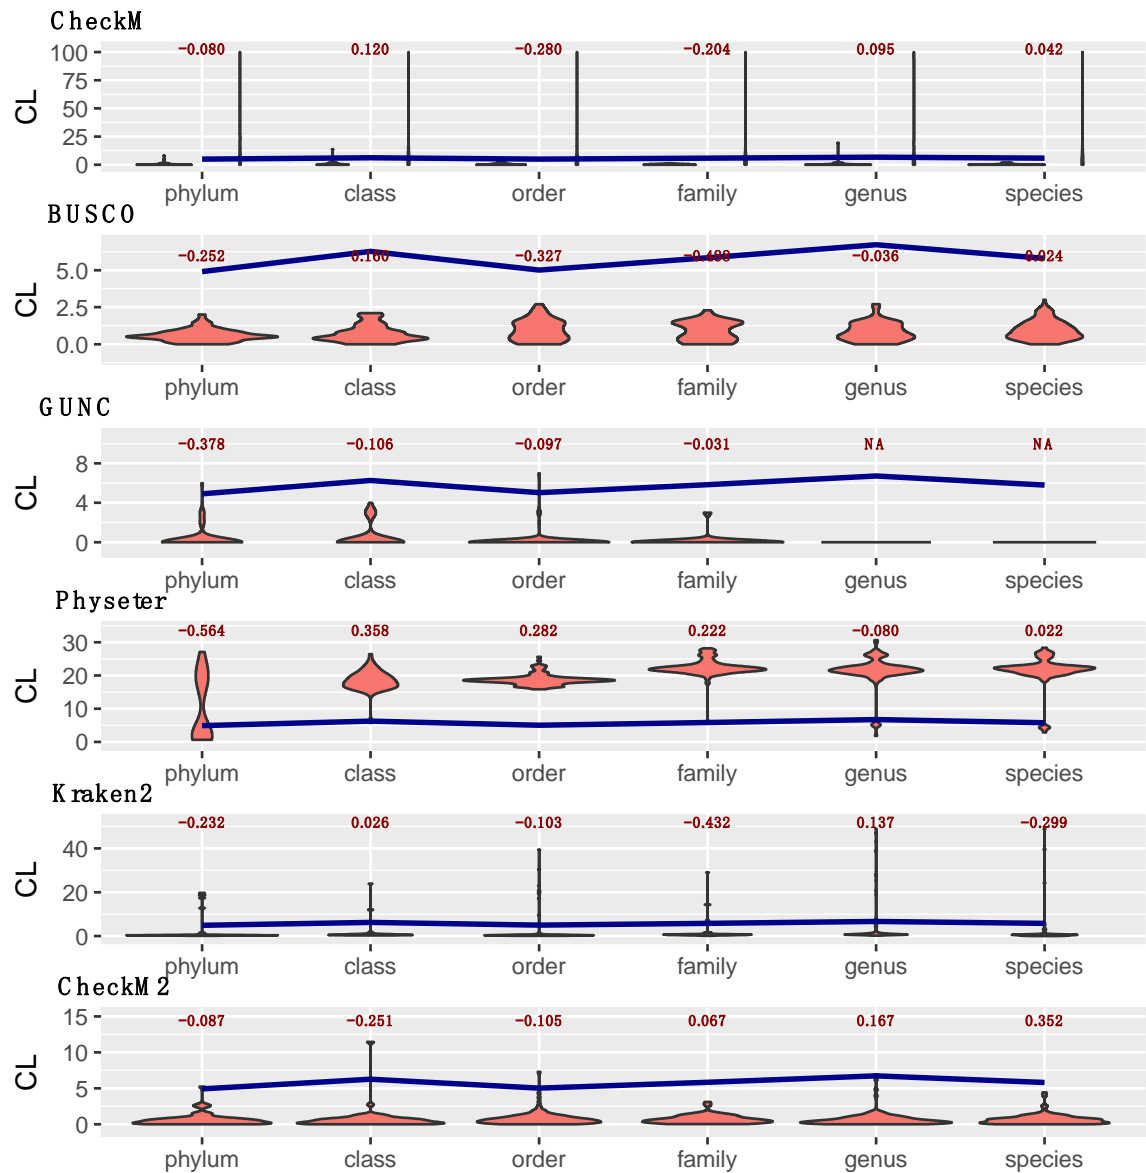

Figure S5: Contamination estimation, at six taxonomic ranks and with a mutation rate of 25%, of the combined types of contamination.
