Message from the Editor-in-Chief

Applied Microbiology (ISSN 2673-8007) is a peer-reviewed open access journal that provides an advanced forum for the international community to report and discuss established and emerging applications for microorganisms and their associated technologies. Research articles, reviews, and other publications are released online immediately after acceptance to provide timely unlimited free access to the scientific community and the general public. We would be pleased to welcome you as one of our authors.

Editor-in-Chief

Prof. Dr. Ian Connerton

Associate Editor

Prof. Dr. J.H. (Han) de Winde

Aims

Applied Microbiology (ISSN 2673-8007) provides an advanced forum for studies related to the application of microorganisms, with a strong emphasis on biotechnology, environment, medicine, and food. It publishes original scientific research articles, comprehensive reviews, comments, commentaries, perspectives, etc. Our aim is to encourage scientists to publish their experimental and theoretical results in as much detail as possible. There is no restriction on the maximum length of the papers. The full experimental details must be provided so that the results can be reproduced. Electronic files and software regarding the full details of the calculation or experimental procedure, if unable to be published in a normal way, can be deposited as supplementary electronic material.

Scope

- Microbial structure, growth, and metabolism
- Process and products
- Industrial microorganisms, fermentation, downstream processing, and product development
- Microbial enzymes, fuels, and industrial chemicals
- Enzymology and protein engineering
- Healthcare products
- Food and beverage fermentation, food additives and supplements
- Microbial biomass production
- Microbial biodeterioration of materials
- Applied genetics and molecular biotechnology
- Applied microbial and cell physiology
- Environmental biotechnology
- Antimicrobial agents
- Microbiomes
- Biofilms

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Rapid Publication

A first decision is provided to authors approximately 13.3 days after submission; acceptance to publication is undertaken in 2.8 days (median values for papers published in this journal in the second half of 2023)
