# Message from the Editor-in-Chief

The flourishing studies of logics during the past few decades have prompted and justify the creation of new specialized or common-purpose scientific journals in logic and its related disciplines. The MDPI journal *Logics* is the latest such endeavor, which aims to evolve into a highquality, reputable, widely recognized, and valued journal, which manifests both the diversity of logics and the unity of Logic.

---

**Editor-in-Chief**

Prof. Dr. Valentin Goranko

---

**Aims**

*Logics* (ISSN 2813-0405) is an international, peer-reviewed, and open access journal, dedicated to publishing highquality papers on all aspects of logic, including logical systems, methods and theories, mathematical logic, computational logic, philosophical logic, and the history of the philosophy of logic and mathematics.

---

## Scope

The journal welcomes submissions in the following areas, and subareas thereof:

- Mathematical logic
- Philosophical logic
- Computational logic
- The history and philosophy of logic and mathematics
- The application of logic to other disciplines, including computer science, artificial intelligence, cognitive science, linguistics, social sciences and humanities

In addition to works devoted to the more traditional themes of logic, articles searching for new methods of inquiry are welcome.

---

## Author Benefits

### Open Access

Unlimited and free access for readers

### No Copyright Constraints

Retain copyright of your work and free use of your article

### Thorough Peer-Review

### Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program

### No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors
