Message from the Editor-in-Chief

Oral emerges with the need to provide a platform for the dissemination of ideas, opinions, and key issues for all aspects of oral health and its related fields. In the two topical collections of the journal, we would like to elicit scientific interest and research focused on the emerging problems of dentistry and oral health and provide a forum to promote scientific information. Indeed, the need to face emerging problems, such as the progressive aging of the population and the impact of technological progress on healthcare, represent the pillars on which to build novel therapeutic strategies in dentistry.

Editor-in-Chief

Prof. Dr. Giuseppina Campisi

Aims

Oral (ISSN 2673-6373) is a multidisciplinary and international peer-reviewed open-access journal on oral health published online by MDPI. *Oral* supports scientific innovations as well as clinical and experimental research, providing an advanced forum for ideas, opinions, and key issues in all aspects of oral health and its related fields.

Our aim is to encourage scientists to discuss new issues and emerging challenges in dentistry and oral health, and to address novel experimental findings on known soft and hard tissue diseases.

We encourage scientists to publish their experimental and theoretical results in as much detail as possible; therefore, there is no restriction on the maximum length of the papers. The full experimental details must be provided so that the results can be reproduced.

Scope

- Community dentistry;
- Endodontic pathology and treatment;
- Lasers in oral sciences;
- Multidisciplinary oral health care;
- Nanotechnology in dentistry;
- Oral and maxillofacial imaging;
- Oral biology;
- Oral pathology and medicine;
- Oral surgery;
- Oral/dental epidemiology;
- Orthodontics;
- Restorative dentistry;
- Digital dentistry
- Dental materials;
- Dental hygiene;
- Pedodontics;
- Forensic odontology;
- Dental Education.

Author Benefits

Open Access

Unlimited and free access for readers

No Copyright Constraints

Retain copyright of your work and free use of your article

Thorough Peer-Review

Discounts on Article Processing Charges (APC)

If you belong to an institute that participates with the MDPI Institutional Open Access Program (IOAP)

No Space Constraints, No Extra Space or Color Charges

No restriction on the maximum length of the papers, number of figures or colors

Rapid Publication

A first decision is provided to authors approximately 27.7 days after submission; acceptance to publication is undertaken in 5.3 days (median values for papers published in this journal in the second half of 2023)
