A Themed Issue in Honor of Professor Vicente Gómez Serrano: Innovation in Production, Characterization and Applications of Activated Carbon, Biochar and Other Carbon-Based Materials

Guest Editor:

Prof. Dr. Adrián Bogeat-Barroso

GIR-QUESCAT, Departamento de
Química Inorgánica, Universidad
de Salamanca, E-37007
Salamanca, Spain

Deadline for manuscript
submissions:

15 July 2024

Message from the Guest Editor

Prof. Vicente Gómez Serrano was born in Monte Lope Álvarez (Jaén, Spain) and obtained his Ph.D. in Chemistry from the University of Granada in 1982. After a short stage in England, in 1983, he moved to the Department of Inorganic Chemistry at the University of Extremadura, where he has worked for nearly forty years and risen through the academic ranks to Full Professor. In addition to his teaching and management activities, Prof. Gómez Serrano has developed a very intense research activity, as evidenced by his outstanding contributions in the field of carbon-based materials.

This Special Issue of *Processes* is intended to provide a broad overview of recent progress and research trends in the field of carbon-based materials. We strongly encourage Ph.D. students, collaborators, and friends of Prof. Gómez Serrano to submit their original contributions in order to honor his outstanding research career.

Prof. Dr. Adrián Barroso-Bogeat

Special Issue

an Open Access Journal by MDPI

Editor-in-Chief

Prof. Dr. Giancarlo Cravotto

Department of Drug Science and
Technology, University of Turin,
Via P. Giuria 9, 10125 Turin, Italy

Message from the Editor-in-Chief

Processes (ISSN 2227-9717) provides an advanced forum for process/system-related research in chemistry, biology, material, energy, environment, food, pharmaceutical, manufacturing and allied engineering fields. The journal publishes regular research papers, communications, letters, short notes and reviews. Our aim is to encourage researchers to publish their experimental, theoretical and computational results in as much detail as necessary. There is no restriction on paper length or number of figures and tables.

Author Benefits

Open Access: free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility: indexed within Scopus, SCIE (Web of Science), Ei Compendex, Inspec, AGRIS, and other databases.

Journal Rank: JCR - Q2 (*Engineering, Chemical*) / CiteScore - Q2 (*Chemical Engineering (miscellaneous)*)
